HV Tech. & Safety

International Maritime Services

We improve the performance of working ships and marine facilities by delivering safety-centric services custom fit to your business. Our training, consulting, inspection, and management services are delivered by skilled and experienced masters, engineers, and HSES experts.

International Maritime Services companies include: International Maritime Services, Inc. [USA], SEA Maritime Services Pte. Ltd. [Singapore], and MY Maritime Services Sdn. Bhd. in Malaysia.

***"No job is so big or so small
that it cannot be done safely
and professionally."***

Training

We deliver practical training on board your vessel or marine facility that is tailored to best meet your crews' need. We believe that a Hands-On training approach is the most effective method of changing crew behavior. It can also be the most cost effective. Obvious and measurable improvements are guaranteed.

DNV-GL Accredited Courses

- High Voltage Technology & Safety (IMO Model Course 7.08, Competency 1.4)
- Security Awareness Training (IMO Model Course 3.27)

- Security Awareness Training for Seafarers with Designated Security Duties (IMO Model Course 3.26)
- Safe Systems of Work (Modules)
 - * Risk Assessment : JSA, TBT, PTW
 - * Hazard Management
 - * Isolation—Lock Out / Tag Out
 - * Manual Handling
 - * Confined Space Entry & Rescue
 - * Working at Height & Rescue
 - * Effective Drills—Fire Fighting
 - * Effective Drills—SOPEP
 - * Maritime Labor Convention
 - * Ship Resource Management
 - ** and more

Containerized Training Solutions

Containerized Training Systems are built into high-cube shipping containers. The training container can be economically shipped almost anywhere to ensure quality training at your worksite. This is especially cost effective for multiple training sessions.

Nautical Institute Accredited Dynamic Positioning Courses

- DP Induction (Basic)
- DP Simulator (Advanced)
- DP Sea Time Reduction
- DP Refresher & Competency Assessment
- DP Revalidation
- DP Emergency Shiphandling
- DP Knowledge for Technical Staff Part A

Consulting & Specialized Services

Our consulting services continue to grow as our company expands internationally. We work hard to understand your operations and project needs to ensure the right solutions and expertise are employed.

Some of the many services we perform include:

- * **Project Management During Shipyards and Vessel Repair**
- * Ship Management
- * Vessel Performance Assessment & Monitoring
- * **Inventory of Hazardous Materials (IHM) Inspections**
- * Accident Investigation & Reporting
- ** and more

Feel free to ask us about any type of maritime service support your might need. We are happy to consider the jobs that others fear.
